Dear M.Sc. José Araújo Jr

The paper you submitted to Journal of Intelligent and Fuzzy Systems has been accepted. Please prepare your final manuscript following the templates available from the general editor (Dr. Reza Langari, rlangari@tamu.edu), keeping the length of the paper to at most 12 journal pages. However, if you need additional space, we will do our best to accommodate your but please notify the general editor in advance of submitting the final manuscript files. On the other hand, we will greatly appreciate your help in using as few pages as possible to allow us to deal with the backlog of unpublished papers. In particular, please do not leave the last page more than half empty!

Please combined the publication files for the paper as a single .rar file, named jifs14-312-Final.rar including:-

- a word-processor version of an ABSTRACT in MS Word or Text (named jifs14-312-abstract.doc);
- a word-processor version of the FULL PAPER in MS Word (named jifs14-312.doc)
- or a word-processor version of the FULL PAPER in LaTeX (named jifs14-312.tex) etc
- a PDF copy of the FULL PAPER (named jifs14-312.pdf).

Details of the paper are as follows:-

Paper Id : jifs14-312

Title : A Nonlinear System Identification Approach Based On Fuzzy Wavelet Neural Network

Main Author : M.Sc. Araújo Jr.

Other authors (if any) : M.Sc. Leandro Linhares, D.Sc. Fábio Araújo, D.Sc.

Takashi Yoneyama
